1 Anchorage

Welcome to Anchorage, the City of Lights and Flowers! A John Hall's Alaska representative greets you on arrival and escorts you to your luxury accommodations, and home for the next three evenings. Situated in the heart of the city, there is much to explore before joining your fellow travelers at a welcome dinner.

Dinner

2 Katmai National Park or Lake Clark National Park

Over the next two days, the group splits in half and flies via small aircraft to a different national park each day – Katmai and Lake Clark. If it's Katmai day, take off on a flightseeing tour to Katmai National Park and Preserve, and arrive via floatplane at Brooks Falls. Watching safely from elevated viewing platforms, witness brown bears perched on the edge of the falls feeding on salmon. During salmon season, as many as 50 brown bears live along the mile and a half long Brooks River.

3 Lake Clark National Park or Katmai National Park

There are no roads in Lake Clark National Park and Preserve so you will be flying in aboard a small plane. If this is your day to visit, it features a guided boat tour, hiking, and a chance to visit the park's visitor center. Lake Clark preserves the ancestral homelands of the Dena'ina people and a rich cultural wilderness. From steamy volcanoes and craggy mountains to alpine tundra and glacial lakes, nature is happening. Spend a few hours exploring the area before flying back to Anchorage.

Travel the Glenn Highway before boarding a small plane on a flightseeing trip. Land in the old mining towns (and Alaska's most famous ghost town) of Kennicott-McCarthy and transfer to quaint Kennicott Glacier Lodge – with views of Kennicott Glacier from the porch. * While not ideal, your accommodations may include a shared bath. The lodge was chosen for its glacial views, quality of cuisine, and service which cannot be duplicated elsewhere in town.

Explore the Kennecott Mines today! This National Historic

Landmark extracted over \$200 million worth of high-grade copper and another \$4 million in silver. Discover the mine's outbuildings, including the historic leaching and power plant. Entrance to all 13 levels of the mine is dependent upon the National Park Service, your guide will inform you on what to expect. This afternoon, catch up on a little R&R or go exploring on your own.
